3 Overview

Before the starting of VIS in Girl Guide Association I just thought from the organization's name that it is an organization who are guiding girls. As a computer science student I did not interested as much in this work I just thought It is just a time pass it will not be helpful for my future job but when I spend my 1st day at organization it was amazing day of my life. The focal person was also cooperative and that day I realized the importance of volunteer service. We as a girl can also serve our nation. We can teach our junior girls about many things which will helpful for them in their lives. As our instructor trains us about "stay safe project" that was great training in my life learned many new things about personal safety and security, safe online, prevention of substance abuse, emotional wellbeing, child labor. During my training period I did lots of activities on these topics and when I appointed in girl's school where I had to deliver all the things which I learnt in my training period it was amazing experience of my life ever I talked junior girls and got their point of views and enjoyed a lot. During these volunteer service as before I just think it was only time vesting but I was wrong I changed my opinion about VIS. And it is not necessary that all work you are doing will help full for your future job sometimes you also have to do these kind of volunteer work that will enhance your creativity, increased motivation, and vision that can carry over into your personal and professional life.

4 Scope of VIS activities

Scope of VIS activities is very wide. From these activities a person can become more responsible citizen, as I learnt that girls may play most important role in society after doing volunteer work. And also change can be brought about society. For our youth vis activities can increases their motivation, and their vision and also they will be able to feel the pain of our local community and then help them more.

4.1 VIS role in student's life

- Inculcate students with empathy
- Actualizing the ethics of caring
- Being the trend-setter and pioneers of volunteerism
- Accreditation and recognition abroad

4.2 VIS role in organization

- Corporate social responsibility
- Socially responsible citizens
- Character building of students
- Partnership with social sector

4.3 VIS role in Society

- A better society with lesser problems
- More helping hands than needy
- Support to government

5 Date/day wise activities

Day 1 (2nd AUG, 2022)

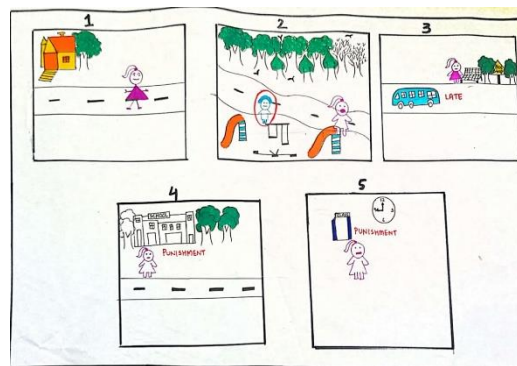

We arrived at the PGGA, NHQ H9/4 in the morning at 9o'clock. And we were welcomed by our site supervisor Ms. Uzma Shahid. There was an introductory session in which all of us has given our brief introduction. And then Ms. Uzma shahid introduced us about girl guide association.

And we did lots of activities like 1st of all for activate our body we did an exercise then we played a game. Through these activities we knew each other we make groups and then did group wise activities.

Day 2 (3rd AUG, 2022)

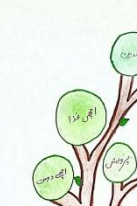

In 2nd day of our training session we revised the introduction of PGGA which we went through in the last session and then our instructor introduced us about “project stay safe” and its module

In 2nd day our 1st module was personal safety and security in this we did lots of activities like our instructor told us a story of Mina and we make a chart on it

In 3rd day our module was about child labor. We learnt and got more about those children who are not studying who are just working for their families and they have to face too much struggle for their food

"نعموں کا درخت"

In 4th day our module was about prevention of substance abuse. We saw videos on that module and discussed the cause and facts of drugs. And also solution of it. My all group members were from biology department and they know lots of about drugs effects on human body and from my partners as a computer science student I gain lots of knowledge from them

In 5th day our module was about surf smart (online security) we learnt very news things in this session and did lots of activities. And also saw videos on projector.

In the 6th day our module is again about online security we did group wise activity on cybercrime and learnt very new things

Day 7 (12th AUG, 2022)

This 7th day was very memorable day of my life because on the behalf of PGGA we visit parliament house and on this day we enjoyed a lot

Day 8 (13th AUG, 2022)

After visit of parliament house on the next day our last module emotional wellbeing was started our instructor told more about emotions and ask questions about it and we played game which was about to identify emotions

Day 9 (15th AUG, 2022)

on this day we arrived in Islamabad model school G7/2 for girls in the morning. And met with principle of school and our group leader told her about our volunteer service. She was agreed and very happy to meet with us on this day I was appointed in 9th class where I have to delivered my lecture on personal safety module

Day 10 (16th AUG, 2022)

In 10th day of my volunteer service I was appointed in class 8th where I have to delivered my lecture on prevention of substance abuse I told to students about cause and facts of it. Students engaged in different activities and they saw video about drugs abuse.

Day 11 (17th AUG, 2022)

In 11th day of my volunteer service I was appointed in class 10th where I have to delivered my lecture on online security and child labor I told to students about cause and facts of it. Students engaged in different activities and they saw video on child labor they enjoyed a lot.

Day 12 (18th AUG, 2022)

In 12th and last day of my volunteer service I was appointed in class 10th where I have to delivered my lecture on emotional wellbeing and child labor I told to students about emotions. And open the game where one student had to express her emotion and other students have to catch and tell correct answer that which emotion she is expressing Students engaged and they enjoyed a lot. And this last day we also performed plantation with students

6 Summing up

Every day of volunteer service I did spend my all time I am so pleased these days were not my time vest I learnt new things and I made my new friends I saw the role of PGGA in our country they are serving their best to Pakistan. They are making our girls better in every sense which would be helpful for their lives and they also give us a chance to join as a senior girl guide and we can serve our country.as we performed different activities like planting and surf smart in school. These all activities I will never forget and as a senior girl I always deliver to junior girls and also my friends through this I can serve my country as I can.

7 Lesson learnt

I have learnt different lesson while working with the PGGA. Most importantly brotherhood, we should help other people who are in need, especially women who are in many different problems. As in Pakistan many girls face harassment. This is not a small issue we have to take stand on it and spread positive confidence to our junior girls and other women We shouldn't hesitate in helping others, and also talk to them in a very friendly way so that they also don't hesitate in sharing their problems with us so that we should know how we can help them, it is surely better for the community as well as our self to become a better person.

8 Recommendations

The recommendation I can give is that the duration must be increased so that the students spend more time community service and learn many things there.

As there is unawareness regarding volunteering activities, most of the people are not aware of its importance. Volunteering activities must be made mandatory on school or college level.

With the help of awareness, more good can be done to community
